INPUT/OUTPUT INTERFACE

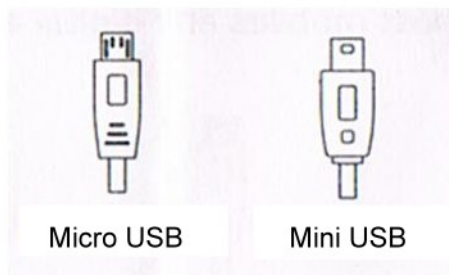

CHARGING MOBILE PHONES AND OTHER DEVICES

Use the LEICKE Portable Power Station to charge digital devices with DC 5V input. Included in the delivery is a 30cm, DC 3.5V switch cable and a charging cable with Mini USB and Micro USB plug which is compatible with most digital communication devices. If the connection/charging cables are not compatible with your mobile phone or other device, please use the original cables of these devices.

CHARGING THE LEICKE PORTABLE POWER STATION

Use Mini USB + Micro USB cable to charge the LEICKE Portable Power Station

Charging from adapter's USB

Charging from computer's USB

CHARGING STATUS

1. Choose the correct connector and connect the device you want to charge with the LEICKE Portable Power Station. The LED indicator light will illuminate green, when the charged device is ready for use.
2. Connect the LEICKE Portable Power Station using the Mini USB cable to a PC or laptop to charge it. Charging starts automatically. During the charging process the LED indicator light will illuminate red. When the LEICKE Portable Power Station is fully charged, the LED indicator light will illuminate green.
3. The LED indicator light illuminates green if the capacity of the battery is between 30% and 100%. A red light indicates that the battery's capacity is below 30%. In this case, you should recharge your LEICKE Portable Power Station. The LEICKE Portable Power Station cannot be used for charging other devices during its own charging process.

Note: Please check if the power adapter is compatible with the LEICKE Portable Power Station or not. We recommend using a high quality power adapter, e.g. a LEICKE Power Adapter, to charge your LEICKE Portable Power Station.

In case the LEICKE Portable Power Station does not charge your device, please make sure, that the power cord is properly connected.

SAFETY INFORMATION

Any modifications to the LEICKE Portable Power Station may result in fire, electric shock, damage or injury. Please avoid the following situations: Do not drop the LEICKE Portable Power Station. Avoid contact with spiky or sharp items. Do not open or puncture. Keep away from fire, high temperatures or water. Avoid short circuits. If you discover a bulge on your LEICKE Portable Power Station, please stop using it and contact us.
