Number of Pieces	Name	Note
1	iPhone5 Magnet Case	Magnetic bottom side
1	iPhone5 Magnet Keyboard	magnetic
1	Charging cable	USB type A to micro USB
1	Charging station	-
1	User's Manual	-

PRODUCT INFORMATION

- Extremely flat Bluetooth keyboard in robust metal case
- Magnetic holder for different possibilities to use
- Compatible with iPhone 5
- Built-in rechargeable lithium battery
- Energy-saving sleep mode
- Easy to charge thanks to micro USB interface

TECHNICAL DETAILS

Interface	Bluetooth 3.0
Operating distance	ca. 10 m
Frequency modulation	GFSK
Operating voltage	3,0 - 5,0 V
Working current	< 5 mA
Standby current	2.5 mA
Sleeping current	< 200 μ A
Charging current	~ 100 mA
Standby time	160 hours
Charging time	1 h
Lithium battery capacity	40 mA
Uninterrupted working time	38 h
Lithium battery life	3 years
Lithium battery specifications	35 x 16 x 2 mm
Key strength	200 g \pm 10 g
Key life	about 5 million strokes
Operating Temperature	-10°C to 55°C

CONTROL ELEMENTS

ESTABLISHING THE BLUETOOTH CONNECTION

- Step 1:** Switch on the keyboard by pressing the ON/OFF switch about 3 seconds. The Bluetooth indicator shows by flashing once that it is switched on. Please wait a moment until the indicator starts to flash. The keyboard is now ready to establish a connection.
- Step 2:** Turn on and unlock iOS device. Tap on the device's settings icon.
- Step 3:** In the settings menu, select item [general] to access [Bluetooth] settings. Tap on [Bluetooth] to turn on the connection. The iOS device will automatically search for a Bluetooth-enabled device. Therefore, Bluetooth must be activated.

- Step 4:** Wireless keyboard is found. Tap on the device to connect.

Step 5: The keyboard is now successfully connected and will be shown in the list of the recognized devices.

Note: The keyboard can be used with all iOS devices which support iOS 4.0 or higher. For other Bluetooth-enabled devices, please verify the Bluetooth standard & compatibility before attempting to connect to the keyboard.

Once successfully connected, the keyboard saves all connection data until connected to another device.

CHARGING THE INTEGRATED BATTERY

When the battery power is low, the power indicator light will start blinking. It is time to recharge the keyboard.

Step 1: Connect USB-B of the native USB power cable to the keyboard charging station.

Step 2: Put the keyboard into the charging station. You may do this together with the iPhone 5 case.

Step 3: The charging indicator light will stay on when the keyboard is charging.

ENERGY SAVING SLEEP MODE

The keyboard will change into sleep mode when it is inactive for 15 minutes and the keyboard power indicator light will go off. To activate from sleep mode, just press any key and wait 3seconds. The keyboard will come back on.

If you do not use the keyboard for a longer time, just switch it off by pressing the ON/OFF switch for about 3 seconds. The Bluetooth indicator shows by flashing twice that it is switched off.

If you want to switch the keyboard on again, just press the ON/OFF switch for about 3 seconds. The Bluetooth indicator shows by flashing once that it is switched on.

SAFETY NOTES

ATTENTION! The case and the keyboard are strongly magnetic. Please keep them away from data carriers like hard drives, disks and credit cards to avoid losing data!

Please avoid the following situations:

- Keep away from sharp objects, oil, chemicals or any other organic liquids.
- Do not place heavy objects on top of the keyboard.
- Avoid contact to fire, heat or direct sunlight.
- Do not microwave.

SPECIAL KEYS

Hold down the Fn key and simultaneously press a function or special sign key of your choice. Mind the keyboard language settings of your iPhone 5.

CLEANING

Clean the keyboard with a moist cloth and water, alcohol or alcohol based disinfectant.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC-Caution: Any changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate this equipment.

IMPORTANT NOTE:

Radiation Exposure Statement:

1. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users should follow the specific instructions in the user's manual to comply with the FCC rules.
2. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

DISPOSAL

This device contains materials that must not be disposed of as household waste. Please check local laws concerning the applicable disposal regulations. Protect the environment by participating in recycling programs!

iPad, iPad2, iPhone, iPodTouch, iOS are registered trademarks of Apple Inc.
